

Marcus and I practice using the habit of Communicating with Clarity and Precision in a Wondergrove video. He helps me pick out a fun new book.

Watch the
Wondergrove Striving
for Accuracy video.
You'll see how Marcus'
story about his volcano
science project helps
Peter with his math
assignment.

Check out the Wondergrove video about Finding Humor. My friends help me realize that I can laugh at my mistakes.

In the Wondergrove video about Thinking About Your Thinking, you can watch me use this habit to play baseball. It's helpful in lots of other activities too!!!
